Other Domestic		45.10	11.67	(33.43)
Support/Custody		47.98	N/A	Category Deleted

Based on demographic factors as well as the non-case related time data submitted by judges, circuits were reclassified from three categories into four and were assigned new judge-year values. (See Appendix A for circuit classification assignments.)

The Committee voted to approve the new classifications and judge-year values and submits them to the Judicial Council for adoption. *Note: All values are in hours.*

Circuit Classification	Judge-Year Values (2009)	Judge-Year Values (2011)
Urban	1,508	1,511
Single County Suburban	1,458	1,499
Multi-County Suburban	1,458	1,315
Rural	1,218	1,309

Adoption of the three recommendations will make these values effective with upcoming circuit studies for consideration by the Judicial Council at its August 26 meeting.
